Dear mister President,

Please find attached my CV and a letter of recommendation of my federation, the Dutch Judo Federation also known as Judo Bond Nederland.

Of course I do not have any problem of on reviling my personal data for JJEU purpose and needing.

I want to apply for the next positions in JJEU board, General Secretary. As you can see I have the full support of my Federation, Judo Bond Nederland (signed by the chairman Miss T. Brouwer)

1) General Secretary.

My goals for working in JJEU board are:

- I like to work in good cooperation with my colleagues from the board, but also with the appointed commissioners, but most important is to work together with all national federations and there representatives. In harmony we can develop hour sport more and more. Also its very important to be aware for all 3 of hour discipline's, its hour tradition that Fighting, DUO and since the last years JiuJitsu.

JuJitsu is for thousands of European's and other nations people a sport which brings them joy, happiness and friendship.

- Changes are still needed, today's society is going faster and faster, JuJitsu also needs to keep on developing to follow grow and prepare itself for the future. One of my goals is to keep on organizing nice competitions, tournaments and Championships for Europe. The last years, as you are aware of course, I organized together with great LOC teams great events in Europe. But beside these events, I also was part of the organization of many online events for training of referees, information sessions for board, members of JJEU and many more. Of course it's also the goal to continue the close work together with JJIF board, president and general director and all commissions. Together we are strong.

I am quit sure that with a strong honest board in JJEU we can reach higher levels of professional JuJitsu in our community, let's do it again and make some nice goals.

Kind regards,

Rick (Richard Leonard) Frowyn
